Exam title

Allowed aids: calculator and writing materials. Write your answers in the boxes.

1 Equations

a) Solve the equation $2x + 3 = 11$.

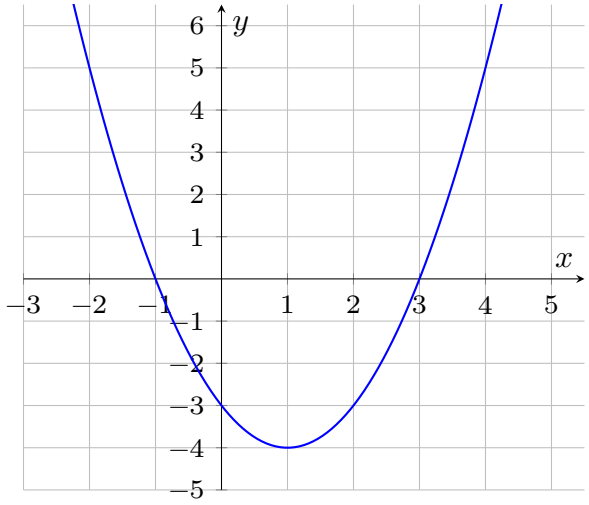
Write solution in this box

b) Solve the equation $x^2 - 5x + 6 = 0$.

Write solution in this box

2 Graph

The figure shows the graph of the function $f(x) = x^2 - 2x - 3$.



a) Complete the value table for f.

x	-1	0	1	2	3
$f(x)$					

b) Use the graph to find the zeros of f.

Write solution in this box

3 Word problem

A rectangle is 3 cm longer than it is wide. The perimeter is 26 cm. How wide is the rectangle?

Write solution in this box
